- Base coat/clear coat

OUTSIDE
- 11˝ Trim
- 17˝ Trim
- 11.5˝ Bleed
WORKS HARDER
TO MAKE YOUR JOB EASIER

The International® DuraStar® 4300 model gives the owner the gift of payback. It’s all possible because this truck makes the jobs of two other people—driver and maintenance person—easier, more enjoyable and more productive. It features innovations designed to increase uptime, extend service intervals and improve fuel efficiency with the addition of a International® DT 466 engine under the bonnet. Combine that with a best-in- class HVAC system, redesigned interior with high-back seats and easy to read gauges, and being on the job becomes both more comfortable and productive.

MILES AHEAD

Our swept-back, front windscreen comes with over 2,000 sq. in. (12,903 sq. cm.) of glass that offers a commanding view of the road.

Our distinctive, chrome grille and variety of different colour options add style to performance.

Our optimized drivetrain performance matches transmission shift points with engine power curves for better responsiveness, reliability and fuel economy.

The set-back front axle with up to 50-degree wheel cut offers better handling and a tighter turning radius.

Diamond Logic® Electrical System offers standard convenience and safety features like automated pre-trip inspection and parking brake alarm.

Two-way breakaway mirrors and three-piece bonnet reduce repair costs.

Upgraded interior, with a new colour scheme, that features a new instrument cluster, cup holders, door handles and map pockets.
